NEWS

OF THE

TOWN

from collecting taxes on stock had been appealed. The Western Investment Banking company has petitioned for a rehearing.

BANK TAXES PAID.—The National Bank of Arizona yesterday paid into the county treasury \$1,400 in taxes under a late decision of the supreme court to which injunction suits instituted by various banks to restrain the treasurer.

JURORS DRAWN.—The trial and grand jurors for the April term of court. (It used to be the May term.) were drawn yesterday. The grand jury will come together on April 10 and the trial jury a week later. District Attorney Flannigan announces that he will proceed without a deputy.

NEW OSTRICHES.—Ten new ostriches arrived at the farm yesterday, and fifty more were expected last night. They are not coming by either the S. F. & P. or the M. & P. nor across country. They are billed by the incubator route. The incubators are found to be quite reliable, and much more prolific than the old birds.

DEATH OF MISS BLACKWELL.—Miss Lily Lyten Guest Blackwell, of Baltimore, died suddenly in this city last night of heart failure. She arrived here less than a week ago, accompanied by her father, Mr. J. L. Blackwell, a prominent resident of Baltimore. The remains will be taken home by her father, who will leave the city tonight.

ANDREW BRONK DEAD.—Andrew Bronk, who until six years ago had been a resident of Phoenix for several years, died at Sagway on February 17. Death was probably the result of apoplexy. The old man died alone in his cabin and his body was found the next morning. He was a gambler by profession, a gambler who played for the love of gaming. He had been playing in hard luck for several years and had lost large sums of money. He leaves a widow and children at Placerville, Cal.

THE NORTHERN NORMAL.—A meeting of the normal school board was held yesterday and reorganized by the re-election of H. Z. Zuck, president, and James H. McClintock as secretary. Bills amounting to \$1,300, many of which had been hanging fire for a year, were taken up and allowed. Other routine business was transacted. The board will leave tonight for Flagstaff, where a meeting will be held tomorrow for the purpose of establishing the northern normal school under the act of the legislature. The completion of the building will be ordered and arrangements will probably be made for opening a summer school which will likely be made a prominent feature of the northern institution.

ENCOURAGE PAYMENT OF POLL TAX.—A special meeting of the board of supervisors was held last night at which an ordinance was passed providing voters must first show a poll tax receipt issued by the county before being permitted to register. The question was raised that this action might incur expense to the city, while the county would realize an amount. It was concluded that those who desired to register could follow the usual method of paying their poll tax. Aside from the passing of an ordinance granting permission to construct a cement sidewalk on the south side of Adams street, between Center street and First avenue, little other business was transacted.

MERCHANTS' PATROL DIFFICULTY.—The merchants' patrol complications were partially settled in the courts yesterday. A charge of disturbing the peace had been entered against Al Gahlin, L. M. Gahlin and George McClarty, night watchmen, and at the trial yesterday in the recorder's court the first two were dismissed. For disturbing the peace by an aggravated assault the latter was fined \$25. Mr. McClarty was also found guilty of the charge of carrying concealed weapons and was fined \$50. He gave notice of appeal in both cases and was held under an appeal bond of \$600. The case of assault with a deadly weapon of which he was a defendant in Justice Gray's court Friday was dismissed yesterday on account of insufficient evidence.

Mr. Hall Talks of His Trip to New York Concerning Water Storage.

Mr. C. J. Hall, president of the Phoenix National bank and of the Arizona Water company, who went to New York recently in company with Dr. Chandler of the Consolidated Canal company to consult with the Hudson Reservoir people relative to water storage, returned to the city late Friday night. It was the hope of the officers of the Hudson Reservoir company that as a result of the conference with Mr. Hall and Dr. Chandler the last obstacle to a contract between the reservoir company and the Arizona Water company would be removed.

Mr. Hall said yesterday to a Republican reporter that he and his New York associates in the Arizona Water company held daily conferences with Mr. Man, the president of the Hudson Reservoir company for a period of ten days, without reaching a final understanding. "While it is more than likely that a contract between the companies will be signed," said Mr. Hall, "we found it to be impossible to conclude the negotiations in the way Mr. Man desired them to be concluded. No fact that inasmuch as the proposed contract was to be for a long term of years, some of the provisions were not favorable to our company and that it would be poor policy to concede them. We had a full and free discussion of the situation and were impressed with the earnestness of Mr. Man and his associates, but in the circumstances we felt impelled to decline to conclude the matter in the way they desired."

"While I am unfortunately, unable to

tell my friends in Arizona that water storage is nearer than it was when I went to New York, I am justified in saying to them that progress is being made in the direction of an adequate storage system. Mr. Man is confident of his ability to finance the project and if the differences between us can be adjusted, and I see no reason why they should not be, it is likely that the people of the Salt River valley will hear news that will be gratifying in the extreme."

THE BAPTIST ASSOCIATION.

The Baptist Association held a business session on Friday morning, when various committees reported and the thanks of the visiting delegates were tendered to their entertainers of the Baptist church. At the business meeting of the Baptist Young People's Union, Rev. George H. Brewer was elected president.

In the afternoon the Woman's Missionary Society held a meeting of great interest, which a home missionary, Miss Watt, gave the principal address. Mrs. Winfield Scott was re-elected president. A question box was opened, and among the answers were Mrs. Scott, Mrs. Tomlinson, Mrs. Halsey and Mrs. Elliott. Mrs. Banks gave a beautiful solo.

In the evening the Baptist Young People's Union held a meeting long to be remembered. After an introduction by President Elwell and a brief address on the Christian Culture course by Rev. Lewis Halsey, Rev. George H. Brewer gave an exceedingly able address on Prevaling Prayer and its hindrances. Miss Edith Kay gave a cornet solo, "Holy City," with great skill. D. P. Ward, representing the Baptist Publication society, gave an

admable address on the development of Christian character. The social committee of the B. Y. P. U. served ice cream and cake and the occasion was by unanimous vote, an enjoyable one.

EVERY SCHOOL CHILD

Who has complained in the least about his eyes should be examined by a competent Optician. The greater percent of eye trouble is acquired or developed during school days. Neglect at this time is responsible for much of the present day eye trouble. Twenty-five per cent of all school children suffer from defective eyes. Many of these unfortunate fall behind in their classes and are often taken out of school through ignorance of the cause, when half an hour with us might remedy the whole difficulty.
